

- Faculty of Natural Sciences (Chemistry Department) in National University of “Kyiv-Mohyla Academy”;
- Obtained degree: Bachelor of Science in Chemistry, 2010;
- Course paper: *“Medical applications of membranes”*;
- Bachelor thesis: *“Synthesis and properties of polyurethaneureas for medical application”*.

European studies (EM³E)

EM3E : *Erasmus Mundus* Master in Membrane Engineering

Participating Universities:

1st semester

University of Montpellier 2 (France, coordinating organisation);

Paul Sabatier University (Toulouse, France);

2nd semester

Institute of Chemical Technology (Prague, Czech Republic);

3rd semester

Universidade Nova de Lisboa (Portugal);

4th semester

GVS Filter Technology (Italy)

Master Thesis "*Preparation and characterization of microfiltration flat polymeric membranes for biomedical applications*"
