

# Training & Secondments

**February 2013**

PhD Start

**March 2013**

**Isolation of hepatocytes from rat livers -**  
National Centre of Inflammatory Bile Passages Diseases,  
Saint-Antoine Hospital - Paris

**May - July 2013**

**Alginate beads production and cell encapsulation -**  
Research center UTC – Compiègne

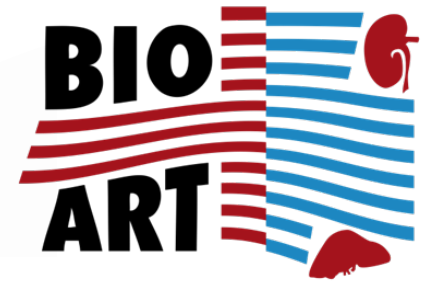

**December 2013**

**Alginate beads characterization -**  
Laboratory for Regenerative Medicine & Pharmacobiology - Ecole  
Polytechnique Fédérale de Lausanne (EPFL)

**January 2014**

**SECONDMENT - ITM Rende, Italy (P5) -**  
Immunostaining and confocal microscopy

# Workshops & Communication

**September 2013**

**BIOART 6-months meeting** - Paris (France)

**January 2014**

**BIOART meeting and 1<sup>st</sup> workshop** – Nijmegen (The Netherland)

**June 2014**

**PhD Day** – Compiègne (France)  
Discussion on PhD thesis to a scientific community

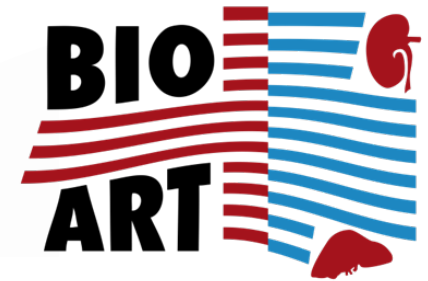

**September 2014**

**XLI Annual ESAO Congress** - Rome (Italy)  
Oral communication – “Encapsulated primary hetero-spheroids for bioartificial liver application”

**September 2014**

**BIOART meeting and 2<sup>nd</sup> workshop + Poster session** – Cetraro (Italy)

# Additional Courses & Others

**Feb. – June  
2014**

- ❖ **English Course** – Scientific approach
- ❖ **French Language Course** – B2 level

**February  
2014**

**Epistemology of the technological research** –  
Discussion about knowledge and research in order to identify  
research aims and methods

**October  
2014**

- ❖ **Science Day** –  
Talking about science –specifically about the own research –  
to/with a non-scientific audience
- ❖ **TV Scientific Program (expected television broadcast: 2015)**–  
Presentation and promotion of the project
